Note Date	Note
09/11/2012 9:24:04 AM	Client called this morning and reported he was really sick. He reported he wanted to go to the hospital because he could deal with this anymore. He did not respond to several questions. I asked him several questions regarding his health status: was he bleeding-yes, was he throwing up-yes, and when asked what hospital he did not respond even asking him several times- he would just continue to report he was sick. I contacted Rose immediately after speaking to him and informed him of our conversation tried to have John do a wellness check on him but he was at the doctors and would not be available for an hour and a half. I let Rose know he would not be available and tried to contact Rosie regarding client but got voice mail on both cell and office number.
